

# Who Did You Touch?

Montell Fish

Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more  
Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more

Depart from me  
You always seem to keep on haunting me  
And then you make me think you're wanting me  
Baby, taunting me  
It's haunting me, love

You are the drugs in my veins  
You keep me going insane, oh  
Deeper than deep is my pain  
I can't, I can't no more

Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more  
Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more

Why did you touch me? You touched me there  
Why did you act like you even care  
Why did you touch me? You touched me there  
You know what you did  
You know, love

You are the drugs in my veins  
You keep me going insane, oh  
Deeper than deep is my pain  
I can't, I can't no more

Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more  
Who did you touch last night?  
Why did you think that I won't figure out?  
Who did you touch last night?  
I don't know you no-  
I don't know you no more

Who did you touch last night?  
Who did you touch last night?

Who did you touch last night?

I don't know you no-

I don't know you no more
