

Woman At The Well

Montell Fish

She only associates herself
With the finest of them all
Nobody really knows how bad she feels
'Cause she never says a word
And all the boys tell her to take her clothes off
Hold off, show it off for us
The woman at the well is just so gone
Hold on
A Savior's coming on the way

Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well

Woman at the well
That you never fail
That your soul sell
Till the heavens of your life tell stories
The pasture of the sin feels boring
The maker of the life sells glory
This man want a feeling to pop off
"Give you the whole world" is really a knockoff
Saw divine truth is more than six seconds
Like an ornament, you reaching the top off
Woman at the well, be defining you
You trying to find love, be defined with Ruth
P 31 and the song of Psalms
There's Proverbs in the second book of long
The last shall be first, be first again
He told you you'll never have to thirst again
He paid the cost for your open loss
Repent is the way to reimburse it in
And one channel, one voice
Tell 'em you picked the possible, one choice
Living water, bread of heaven
Walk of life without Bred 11s
Oh God
Women at the well don't cry
I saw wings, so you can fly
Tell your lovely testimony about love that never dies
Cause' I'm seeing your pain, I know
There's never any rain, I know
See, this road never seems easy
Cause if you did, you wouldn't see me

Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
Woman at the well, woman at the well
It's the woman at the well (Woman at the well)
Woman at the well, woman at the well
It's the woman at the well
