All Night Long

Montgomery Gentry

Well the party started early
About a quarter to three
Just a few close friends
Charlie, Troy, and me
We just got started when somebody asked
How long you think this party's gonna last

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long

Well the next door neighbors started raising a fuss
Said you had a party and you didn't call us
I said put on your dancing shoes and come along
We'll be here till the cows come home

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long
(and that's all night long)

(Ahh, guitar)

We'll be jumping through the windows and sneaking down the hall
s
Dancing on the ceiling, dancing on the wall
The last thing I remember 'fore the lights went out
I jumped up on the table and I started to shout

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long
(I mean all night long)

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long
