

Damn Baby

Montgomery Gentry

Damn baby, are we crazy?
Crazy enough to think that we might make it
Well maybe, if we take it
Slow enough to make love cause baby I believe

Never in my life girl have I
Been this close to something so real
Something so good that it makes me feel like...
Damn baby!
It's the way we...
Take this thing to another place
That I've never been.

Damn baby, you're driving me crazy
What do you say we lock the door
And leave the world outside
Hey, break me, cause I've been known to
Walk away when I get this close
But baby not this time

Never in my life girl have I
Been this close to something so real
Something so good that it makes me feel like...
Damn baby!
It's the way we...
Take this thing to another place
That I've never been
Damn baby!

Girl I ain't no fool
Baby look at you

Damn baby!
It's the way we...
Take this thing to another place
Yeah baby!
You drive me crazy
What do you say we lock the door
And leave the world outside
Damn baby!

Come on baby...
