## **Damn Baby**

## **Montgomery Gentry**

Damn baby, are we crazy? Crazy enough to think that we might make it Well maybe, if we take it Slow enough to make love cause baby I believe

Never in my life girl have I Been this close to something so real Something so good that it makes me feel like... Damn baby! It's the way we... Take this thing to another place That I've never been.

Damn baby, you're driving me crazy What do you say we lock the door And leave the world outside Hey, break me, cause I've been known to Walk away when I get this close But baby not this time

Never in my life girl have I Been this close to something so real Something so good that it makes me feel like... Damn baby! It's the way we... Take this thing to another place That I've never been Damn baby!

Girl I ain't no fool Baby look at you

Damn baby! It's the way we... Take this thing to another place Yeah baby! You drive me crazy What do you say we lock the door And leave the world outside Damn baby!

Come on baby...
