

What Am I Gonna Do With the Rest of My Life

Montgomery Gentry

I can make it for a day or two without you
And maybe I can make it through the night
I can laugh and I can drink and probably be alright 'til mornin
g
But what am I going to do with the rest of my life?

I've got things that I can do
I've got places I can go to this evening
I've got whiskey I can drink
That'll help me not to think about your leaving
I can smoke and I can drink
I'll probably be alright 'til morning
But what am I going to do with the rest of my life?

Oh, play it pretty, boys

I've got things that I can do
I've got places I can go to this evening
I've got whiskey I can drink
That'll help me not to think about your leaving
I can smoke and I can drink
I'll probably be alright 'til morning
But what am I going to do with the rest of my life?

Oh, now tell me, baby
What am I going to do with the rest of my life?
