

I wouldn't feel this way  
If you would come back down for me  
I wouldn't know this pain  
If you would send it all away  
Right now!

With every breath that you take  
That you lose  
That you would pay for  
Something should start to  
Move out!  
Get out!

I wouldn't feel this way  
If you would come back down for me  
I wouldn't know this pain  
If you would send it all away  
Right now

Big words  
Big ideas come around  
Big words  
Big ideas come around  
Right now big words  
Big ideas come around  
You're nothing special  
I've heard it all  
Big words  
Big ideas come around

You're all something special

With every breath that you take  
That you lose  
That you would pay for  
Something should start to move out  
Well, if life is just a chance  
Come on and take the hand

I wouldn't feel this way  
If you would come back down for me  
I wouldn't know this pain  
If you would send it all away

Move out!  
Get out!

We'll run and you'll never stop us  
You'll rot and we'll never stop
