The truth is there  
We can't deny the feeling  
To know the end is to know yourself

To know the end is to know yourself  
The truth is there  
Know yourself  
The truth is there

So if you've known all this time  
Why would you go through all the trouble  
To live an honest lie  
Time can stand, I know you can't  
Just wake from all this, wake from all this  
Wake from the design

Nine on the fuse  
With every time you choose  
Every time you lose  
Why, I'm confused  
If you would let me go again  
I would know  
Just how far it goes  
The nights I remember  
Were dark and loud  
Filled with violence (filled with violence)

You can tell by the look in their eyes  
There's nothing left  
Nothing left  
I can tell by the look in your eyes  
There's nothing left  
Nothing

So stop and stare  
They come without a feeling  
What's looking back  
Isn't who you know  
It's like a dream  
That's always there  
You want the truth  
The whole damn thing  
Feels fucking hollow

The eyes of the vacant will speak to you  
We stop and stare calling out to nowhere

You can tell by the look in their eyes  
There's nothing left  
Nothing left  
I can tell by the look in your eyes  
There's nothing left  
Nothing

You can tell by the look in their eyes  
There's nothing left  
Nothing left

I can tell by the look in your eyes  
There's nothing left  
Nothing

The truth is there  
We can't deny the feeling of our death  
To know the end is to know yourself
