Moon Taxi

Forever, forever's just another step away... away  
For a moment, we're gone tomorrow but we're here today... today  
Without you, we're walking round in circles in the dark... in the dark

You burned me, hurt me bad but never left a mark

There's a fleeting star that lights the way  
For the ones we love  
That guides them to the place we're thinking of  
That shines and shines and shines

Sometimes, sometimes we have a hard time letting go... letting go  
I love you, I love you one more time just so you know... just so you know

There's a fleeting star that lights the way  
For the ones we love  
That guides them to the place we're thinking of  
That shines and shines and shines from up above... from up above
