

## Let's Go Back

Moon Taxi

Baby it's a game that everybody plays  
Goes on and on for days and days  
Everybody stares into the screen  
But no one really cares what anything means  
Soon as you bawl, start to cry  
Don't drink from the tears that leave your eyes  
Everybody wants to try and fly  
But you lose your mind if you get too high

Let's go back, let's wait and see  
It's the same old chords with a different melody  
Let's hold on, let's lose control  
One last time before we get too old

Baby it's a game that no one ever wins  
As honest truth as a camera lens  
If pictures tell a thousand words  
I can't remember a thing I've heard  
Slow and steady - no I guess I'm not  
But that don't mean I'm a lousy shot  
My aim is sharp and my hands are fast  
The bullet breaks the mirror glass

Let's go back, let's wait and see  
It's the same old chords with a different melody  
Let's hold on, let's lose control  
One last time before we get too old

Let's do it all again, let's do it all the same  
Let's go back to the start, let's ride until the end  
Baby it's a game but that don't mean  
You're leaving here with anything
