

## Light Up

## Moon Taxi

Oh, I can see it  
Stars are lining up  
So get ready, get ready, yeah  
Ready to light up

I know this isn't how you planned it  
I know you don't always understand it  
I know it's been a hard year  
Yeah, it's been a hard year for me too  
Feeling like you can't go on  
Feeling like the night is so long  
You know that I'm right here  
And I hear what you're going through

Will we ever  
Make it to the other side?  
Will we ever  
Get outta here alive?

Oh, I can see it  
Stars are lining up  
Oh, I can feel it  
A changing in our luck  
Baby, we're diamonds  
We're diamonds in the rough  
So get ready, get ready, yeah  
Ready to light up  
Ready to light up

Sometimes it is all it takes  
To let the dirt wash away now  
It's time we let it last  
No more digging through the past

'Cause we're gonna  
Make it to the other side  
Yeah we're gonna  
Get outta here alive

Oh, I can see it  
Stars are lining up  
Oh, I can feel it  
A changing in our luck  
Baby, we're diamonds  
We're diamonds in the rough  
So get ready, get ready, yeah  
Ready to light up  
Ready to light up  
Oh yeah, oh yeah

We're always running (running)  
We never look back again  
We're always running (running)  
We never look back again  
We're always running (running)

Oh, I can see it

Stars are lining up  
So get ready, get ready, yeah

Ready to light up  
Ready to light up  
Ready to light up  
We're diamonds in the rough  
So get ready, get ready, yeah  
Ready to light up
