

Nothing Can Keep Us Apart

Moon Taxi

Nothing can keep us, nothing can keep us apart
Nothing can keep us, nothing can keep us apart

High up above
Sun coming down
I see the city lights
Shining up from
Underground

We'll run those streets
Stay up all night
And in your eyes I see that
Everything's alright
Oh when I get there

Nothing can keep us, nothing can keep us apart
Nothing can keep us, nothing can keep us apart
Wherever you go, wherever you are
Nothing can keep us, nothing can keep us apart

'Cause not far away
You're waiting for me
It won't be long
Togethere, together we'll see

Nothing can keep us, nothing can keep us
Nothing can keep us, nothing can keep us apart

Nothing can keep us, nothing can keep us apart
Nothing can keep us, nothing can keep us apart
Wherever you go, wherever you are
Nothing can keep us, nothing can keep us apart

Oh when I get there
Oh when I get there
