One Step Away

Moon Taxi

One step away
From falling off the edge
One step away
Good as dead
Too late to go back
Too hard to go on
I'm one step away
From getting gone

Alone at last
I find myself
But it's not
What I thought it'd be
Always climbing
Up the ladder
Reaching for the highest tree

Now I'm falling down
Backwards in the shaky ground
Can't you hear me calling out
For you

One step away
From falling off the edge
One step away
Good as dead
Too late to go back
Too hard to go on
I'm one step away
From getting gone

Waking up
Can't find myself
So who am I
Supposed to be
Always driving
To the dark side
In a penny limousine

Now I'm falling down
Backwards in the shaky ground
Can't you hear me calling out
For you

One step away
One step away
I'm one step away

One step away
(Too late to go back)
One step away
(Too hard to go on)
One step away
(Good as dead)
I'm one step away
Fister getting
