Rooftops

Moon Taxi

We spent the night on the rooftop
Between the streets and the stars
I wish the world would just stop
So we could stay where we are
I can see the pieces of the puzzle
I can see my way out of this trouble
We spent the night on the rooftop
Between the streets and the stars

I've never seen these all neighborhood
Quite so clearly before
And I've never felt this good
Quite this good before

You know I'm feeling alright about
How this will all work out
We spent the night on the rooftop
Between the streets and the stars

Cause I was gonna be a reason
A reason not to go
Well but that ain't no reason
And both you and I know
Well those people that can't see us
From inside the passing cars
We spent the night on the rooftop
Between the streets and the stars

Between the streets and the stars
Between the streets and the stars
