Running Wild

Moon Taxi

Stepping out, underneath a golden sky
Find a way, through the people passing by
Oh I'm asking why, Oh can't we live tonight
We're running out of time
And just for now
We could come undone with the falling sun

Oh, oh, oh Running wild
Oh, oh, oh Running wild

So drink it in, let it race around your mind
We come alive, as it's dripping from our eyes
Oh this city's wild, Oh its burning through the night
Until we say goodbye
So just for now
We could come undone with the rising sun

Oh, oh, oh Running wild
Oh, oh, oh Running wild

Feel it all around
Stars are coming down
Running through the town
Stars are coming down
Feel it all around
Stars are coming down
Running through the town
Stars are coming down
Falling one by one, so we start to run

Oh, oh, oh Running wild
Oh, oh, oh Running wild

Oh, oh, oh Running wild
Oh, oh, oh Running wild

Oh, oh, oh Running wild
Oh, oh, oh Running wild
