

# Trouble

Moon Taxi

Drove throughout the night  
Seven hours straight  
Saw the sun rising  
Over the Golden Gate  
You and me run forever  
You and me stay together

Tore out a page  
From a book I read  
Turned a Chevrolet  
Into a king-sized bed  
You and me know no better  
You and me know

Oh that trouble's gonna find us no matter where we go  
Oh trouble's right behind us no matter where we go

Spell out your name  
On the windowsill  
At the break of dawn  
When the world is still  
The sound of nothing around us  
We let the ocean surround us

Wind down the road  
Far as Monterey  
Can't find the words  
That I want to say  
You and me run forever  
You and me run

Oh but trouble's gonna find us no matter where we go  
Oh trouble's right behind us no matter where we go, woah  
Whoah, whoah

Oh, trouble's gonna find us no matter where we go, woah  
Trouble's right behind us no matter where we go  
Oh, trouble's gonna find us no matter where we go, woah, woah  
Trouble's right behind us no matter where we go, woah
