For far away, the sky is a wide sunset
Don't look at me now, how about me?
What is it so scary, scary and shining (And shining)
Do you have a main chara- main character? yeah (Ooh)

Head, shoulder, knees, toes
Sing the ending part
Turn it off all night, look up a lot
My heart is gone yeah
Like a stick, I can't stop my heart, uh (Na-na-na-na-na)

By my side
Now, the side of you, I trusted, yeah
I need to work with you today
What do you think, love?

Come on, come in
It's close on that distance
What should I say?, I like, like it
Strawberry cherry
Stay a little longer, coffee hmm
Some chemistry between you and me
Only with you

Yeah I like any kind of me, you and I
Our chemistry, I need you a-around me
Nobody else, nothing else
Only with you

Oh the moon, body
Even the wind is our path (Yeah, yeah, yeah, yeah)
Even if you don't say anything
It's a new feeling for us
Hold my heart with your hands
Trying to hold it anywhere
If the spring breeze comes out
Close your eyes on this road
Sweetness is falling out
This mystery between you and me

Come on, come in
It's close on that distance
What should I say? I like, like it
Strawberry cherry
Stay a little longer, coffee hmm (Yeah)
Some chemistry between you and me
Only with you

Yeah I like any kind of me, you and I
Our chemistry
I need you a-around me
Nobody else, nothing else
Only with you
