

GOLD

Moonbyul

Sometimes, you might miss a goal
(Hard to get a win)
It might take some time to know
(How to handle it, hoo)
Things aren't easy, A to Z, where should I go?
What am I bid for the choice? I am not sure
Who knows? There's no right or wrong

You know what you like (What you like)
You know that, you know that
You are what you like (Like you)
You know you're glowing now and that's a fact

You're one in a million, yeah
About you, I'm sure about that
You're shining and you're like gold
Like gold, like gold
Don't doubt ya, don't get me upset
My life getting started first step
You're shining and you're like gold
Like gold, like gold

Like gold
Like gold, like gold
Gold
Like gold, like gold

You got yourself up all night (All night)
Twenty-four, all day and night (Ooh)
Hope you'll be okay
Do not worry, you don't always need to be perfect
Trust in yourself, paint your color
Nothing hurts you, you're the ruler
All the roads you're walking by, doesn't, doesn't matter
It don't matter, if you messed it up, you're better, better

You know what you like (What you like)
You know that, you know that
You are what you like (Like you)
You know you're glowing now and that's a fact

You're one in a million, yeah
About you, I'm sure about that
You're shining and you're like gold
Like gold, like gold
Don't doubt ya, don't get me upset
My life getting started first step
You're shining and you're like gold
Like gold, like gold

Make a move and make a count
Use your words and get it out
Spend your love and get the chance
Yeah, everyday, golden age

Like gold, like gold
Gold

Like gold, like gold

You're one in a million, yeah
About you, I'm sure about that
You're shining and you're like gold
Like gold, like gold
Don't doubt ya, don't get me upset (Oh, yeah)
My life getting started first step (Oh, woah)
You're shining and you're like gold
Like gold, like gold (Shining like gold)

Like gold
Like gold, like gold (Alright, alright, alright)
Gold
Like gold, like gold (You're shining and you're like gold)
