

Comfy

Moonchild Sanelly

(Hey, yo)
Yea, I might be bad for you
Yea, you might be bad for me
I say that factually but actually
I come so naturally
Yea, I hit her up practically
Blow out your back
What's your fantasy?
Pour you a drink
What you want from me?
Girl I bust on your chest romantically (Hey, what?)
Right, how you look so good
Girl from Clapton, girl from Bush
Jump in the place and the whole place shook
Watch how I jump on the ting like whoosh
Pinch your back and then push
My girl [?] would
We do things there before we should
Not before we could

How you look so comfy?
How you look so comfy?
How you look so
How you look so lovely
Come in the place and the whole place jumpin'
How you look so
How you look so comfy?
How you look so
Come in the place and the whole place

We don't care where you [?] from (huh, no)
We love badman, we love gunman, we love madman
[?] my belly with the action
Simulate you brain like CAT scan
Everything lock off
[?] G-string pop off
Leave your [?]
Bring your bitch
[?] with her top off
My girls they are comfy
Saw your lips, them plumpy
I got them hooked, no junkie

Would I upset if you dumped me

How you look so comfy?
How you look so comfy?
How you look so
How you look so lovely
Come in the place and the whole place jumpin'
How you look so
How you look so comfy?
How you look so
Come in the place and the whole place

My whole crew really wanna sex you
You don't gotta choose we will all ride you

My whole crew really-, my whole crew
My whole crew really wanna sex you

My whole crew really wanna sex you
You don't gotta choose we will all ride you
My whole crew really-, my whole crew
My whole crew really wanna sex you

How you look so comfy? (Sex you)
How you look so comfy? (Sex you)
How you look so (Sex you)
How you look so lovely (Sex you)
Come in the place and the whole place jumpin'
How you look so
How you look so comfy?
How you look so
Come in the place and the whole place
