

# Everything I Need

Moonchild

You make me wanna stop  
Settle down, stop  
Going out, stop  
Leaving town  
You're everything I need, baby

You make me wanna stop  
Wondering when, stop  
Measuring, sway  
With the wind  
You're everything I need, baby

You're everything I need (Everything I need, everything I need)  
Everything I need (Need)  
You're everything I need (Everything I need, everything I need)  
Everything I need

You make me wanna stop  
Settle down, stop  
Running round, roots  
In the ground  
You're everything I need, baby

You make me wanna stay  
Order in, go  
Tell a friend he's  
Superman  
You're everything I need, baby

You're everything I need (Everything I need, everything I need)  
Everything I need (Need)  
You're everything I need (Everything I need, everything I need)  
Everything I need (Everything)  
You're everything I need (Everything I need, everything I need)  
Everything I need  
You're everything I need (Everything I need, everything I need)  
Everything I need (Yeah)

Everything  
I need, yeah  
Mmm
