

## Last Time

Moonchild

Without the expectations  
You always catch them by surprise  
This is an invitation  
'Cause it won't be the last time

Keep shining  
Grinding  
You know they need reminding  
It won't be the last time

It's petty  
When they only see you with their eyes  
Their ears ain't ready  
Baby, in the meantime

Keep shining  
Keep grinding  
You know they need reminding  
It won't be the last time

Let me show you, show you what I came for  
Show you, show you what I'm made for  
This is the invitation  
It won't be the last  
This is the invitation  
It won't be the last time

It won't be the last time  
It won't be the last time
