

Little Things

Moonchild

Your smile
Fresh in the morning
Hot cup of something
Heavenly
That girl
Dancing down the hallway
She's got the party
Up her sleeve

My joy, my life, my love
Lives in the little things
(My joy, my love)
Lives in the little things
(My sweet life, my joy, my love)

Late night
Soaking up the quiet
Lucky when I find it
Thinking in peace
That song
Passing in a car and
Taking me back
Back to nineteen

My joy, my life, my love
Lives in the little things
(My joy, my life, my love)
Lives in the little things
(My sweet life, my joy, my love)

Living in the little things
Little things
The little things (The little things)
Living in the little things
Little things
The little things
