

Need That

Moonchild

I need that real love
He's got that real love
I need that real love
He's got that real love

High on love
Talk until the sunrise, love
Real love
Someday love
Canceling plans on Monday, love
Can't get enough

I need that real love
He's got that real love
I need that real love
He's got that real love
(Real love)

My mama told me to pray and be patient
'Cause a woman's heart should be kept sacred
The good Lord must've heard me and I thank him
Before now, was on the verge of breaking down
I like you if you want me to say it plainly
You tickle all of my fancy quite frankly
You got me changing and wearing my Sunday's best on Wednesday's
Guess I'm becoming one of them little ladies
Who talk about their baby boo all day
Conversation, we parlay
The jury's in, you got a strong case
The reason I text you, "Hey, bae" after a long day
From the stu to the kitchen, cheffing your favorite plate
The first time someone they went M.I.A
When it started getting real, this emotional real estate
We lettin' our feelings spill
Foundation is laid and it's sturdy
I ain't afraid to drop the L word early
It's real

I need real love (I do)
He's got that real love
I need that real love
He's got that real love

Real love
He's got it
He's got it
Clever love
Make it through whatever love
Real love
Plenty love
Fast then slow and steady love
Real love
Tender love
I'll always remember love
Real love
Thoughtful love
We stayed and we fought for love

Real love
