

# Ocean Deep

Moonchild

Discovering, all the missing pieces down below  
The mystery  
The darkness and the pressure you have known

Stay with me, stay  
Never never go away  
Deeper now

You know the truth, but it don't get you where you want to go  
Slowly now, back to the surface soon your mind will float

Paradise draws you in  
Treasure lies deep with sin  
As you rise back to the light  
Take with you this piece of where you've been, so

When troubles bring you down  
Go deeper look around  
This world can bring you peace  
The truth lies ocean deep

Stay with me stay  
Never never go away  
Deeper now

Just take your time, escape the expectations you foresee  
A strange new light, this new reality is yours to keep

Paradise found you there  
Deep in thought, your despair  
Far from where you long to be  
But the truth is in you lost at sea, so

When troubles bring you down  
Go deeper look around  
This world can bring you peace  
The truth lies ocean deep
