

# Run Away

Moonchild

I'm not gonna  
Been tryin' to  
Look the other way  
Like we never knew, love  
Givin' you this space  
All I've got to say is stuck  
Spinning in my head  
I'm done, I'm not gonna pretend

I should have known  
It'd be this hard  
To let you go  
Dream my heart  
The little things  
Drive me insane  
I'm not gonna run away, no-no

I'm not gonna run away from our love  
I'm not gonna run away from our love  
I'm not gonna run away from our love  
I'm not gonna run away, no

Still makes me smile  
And I'm not gonna hide it  
Learn to love what's left  
Cause I'm too tired to fight it  
So ready to move on  
But not to forgot you baby  
You meant somethin' to me  
More than somethin'

I should have known  
It'd be this hard  
To let you go  
Dream my heart  
The little things  
Drive me insane  
I'm not gonna run away, no-no

I'm not gonna run away from our love  
I'm not gonna run away from our love  
I'm not gonna run away from our love  
I'm not gonna run away, no

I'm not gonna run away  
I'm not gonna run away  
I'm not gonna run away  
I'm not gonna run away
