

Strength

Moonchild

Memories misbehave
A gift to save me from the same mistake
I keep your words near my heart
Hoping they'll find a way
Inside the loving part

It won't be long
My strength will come
It's been deep down all along
Not all at once
My strength will come
But I'm not wrong
I can feel it coming

Coming, coming, coming
Coming, coming
I can feel it coming

I was sinking, overthinking
What does it matter that I couldn't see? (Let it go, let it go)
I put forgiveness in the air
Hoping that if I start
My heart will follow me there

It won't be long
My strength will come
It's been deep down
All along
Not all at once
My strength will come (My strength will come)
But I'm not wrong
I can feel it coming

Coming, coming, coming
Coming, coming
I can feel it coming
Oo-oo-oo

You are
We are

No, it won't be long
My strength will come
It's been deep down
All along, all along
Not all at once, no, no, no, no
Oh, I feel it coming

I can feel it (No, it won't be long)
I can feel it (No, it won't be long)
I can feel it (No, it won't be long)
I can feel it (No, it won't, no, it won't be long)
No, it won't, won't be long
No, mm
