

All or Nothing

Moonspell

The signs are here, the end is near
A lot to think about
Walk through the door, that will be all
We're closing, closing down
Come on and let us go, all hope is gone
Life is a feast, all you can eat
Every night and day
Our job is done, we brought you joy
Every now and then

Inside the wheel another turn
Around, around the sun
Pick up the bill, it's time to go
We're leaving, leaving town
Move on and let us go, all hope is lost

Our job is done, we brought you joy
Every now and then

Buy the time
Oh, clear the space
It's all or nothing

Buy the time
Oh, clear the space
It's all or nothing
It's now or never

Buy the time
Oh, clear the space
It's all or nothing
It's all or nothing

Life is a game you cannot win
You just have to play
Our job is done, we brought you joy
Every now and then

Buy the time
Oh, clear the space
It's all or nothing

Buy the time
Oh, clear the space
It's all or nothing
It's now or never
