

Until We Are No Less

Moonspell

Breathe in
Breathe out
Breathe in
Breathe out
Breathe in
Breathe out
Breathe in
Breathe out
Breathe in
Breathe out
Breathe in
Breathe out
Breathe in
Breathe out
Inhale
Exhale

Breathe in
Breathe out
You reached the top of the chain
Inhale
Exhale
You made it till the end of days

Every man is a sinner
Every man is a liar
Life's a slow procession
Into the fire

Carry the weight
Or crush under it
Carry the weight
Or crush

Every man is a sinner
In the name of the father
History's repeating
Into the fire

Carry the weight
Or crush under it
Carry the weight
Or crush

We started wanting
To be ourselves
Until we are no more

Breathe in
Breathe out
You reached the top of the chain
Inhale
Exhale
You made it till the end of days

Breathe in
Breathe out

Exhale

Breathe in

Breathe out

You reached the top of the chain

Inhale

Exhale

You made it till the end of days

Breathe in

Breathe out

You reached the top of the chain

Inhale

Exhale

You made it till the end of days

Inhale
