

## FEELS SO RIGHT

Moonstar88

One faraway Sunday  
He dawned on me  
We were just passing time  
You know I can't wait to tell you  
So easy to pick up from where we left off  
Same old lines, same old stories  
Never, never have to justify  
And I say

Oh, it feels so right  
Oh, it feels so right

Life meant nothing but the future  
Will I, will love in iterations  
Used to laugh over ourselves  
Always got that one fine day

Oh, it feels so right  
Oh, it feels so right  
Oh, it feels so right  
Oh, it feels so right

We rocked the world together  
And you go for the better  
We can have it all  
Somewhere, something has to give

Oh, it feels so right  
Oh, it feels so right  
Oh, it feels so right  
Oh, it feels so right

It feels so right  
It feels so right  
It feels so right  
It feels so right
