

## Take Away

Moonstar88

I can't take all this madness inside of me  
These monsters that haunt me  
In my darkest dream

Hush now, I don't want to hear it  
Just get out of here  
I just want to run away...from you

Take it all...away from me  
I don't want it, stay away from me  
Take it all...away from me  
I don't want it, stay away from me

Hush now, I don't want to hear it  
Just get out of here  
I just want to run away from you

Take it all...away from me  
I don't want it, stay away from me  
Take it all...away from me  
I don't want it, stay away from me
