

**Freckle**

## Moose Blood

Do you really want to go there?  
Do you think it'll make it easier?  
Cause I don't  
And don't say it now, love  
And don't say it as I'm about to go  
You know I can't do this on my own

Cause it's not enough  
Just wait for the ride home  
It's not enough

When I'm home, I don't wanna go, you know I hate to leave  
Cause it's hard enough sleeping on the floor without you next to me  
Even though it's only been a week, I'm counting down the days  
Cause I'm getting so damn tired of falling out every morning when we talk

I wish we didn't go there  
You don't think about how hard it is  
And it shows  
And don't be like that love  
And don't say it when I have to go  
You know I can't do this on my own

You know it's never enough  
Just wait for the ride home  
You know it's never enough

When I'm home, I don't wanna go, you know I hate to leave  
Cause it's hard enough sleeping on the floor without you next to me  
Even though it's only been a week, I'm counting down the days  
Cause I'm getting so damn tired of falling out every morning when we talk

You look so great to me  
But you know that, don't you?  
Cause I always told you  
You look so great to me  
But you know that, don't you?  
Cause I always told you  
You look so great to me  
But you know that, don't you?  
Cause I always told you  
You look so great to me  
But you know that, don't you?  
Cause I always told you  
You look so great to me  
But you know that, don't you?  
Cause I always told you
