

Everything I ever did, had to climb to the top
Nigga had to be running the thang
I don't care how many bosses inside of the room
Add one more when I step on the scene
Don't care wherever I'm at, imma give my respect
And I demand it come it back to me
Got something for all you niggas that's sleep
Saw me, ya didn't even know it was me
You must demand yo respect
By stepping on these niggas neck
Working I done broke a sweat
Cant be on chill, bout a check
Everything I ever did, had to climb to the top
I wont stop 'til I'm running the game
Being at the bottom was never my thing
You gotta feel it to know what I mean

Ouu you
You gotta feel it know what I mean
Starting at the bottom a tough a pill to swallow
But I got no problem I never complain
I got no problem going through the rain
I got no problem running through the ranks
I'm really him imma keep it a bean
You probably think I'm off one of them thangs
Clinching my jaws my jaws everytime that I think
That's me pumping ideas in my brain
I do whatever it takes
All gas no brakes, but I can't crash no way
Niggas tryna a be the boss, but don't know the cost
Don't know how to climb up the chain
Niggas get a lil sauce, know they get lost
But I can't go out that way

I was born to be a boss
And I know how to take a loss bounce back
The game gone come at a cost
Gotta be willing to put in the time
Never been scared of the harder way
I cant make this up
I just make it look easy
I calmed the storm in Amiri jeans
I never waited on them to believe because

Everything I ever did, had to climb to the top
Nigga had to be running the thang
I don't care how many bosses inside of the room
Add one more when I step on the scene
Don't care wherever I'm at, imma give my respect

Everything I ever did, had to climb to the top

I wont stop til I'm running the game
Being at the bottom was never my thing
You gotta feel it to know what I mean

You gotta feel it
Make some room at the top for a nigga
Wanna be where the bosses talk business
That's cuz imma big boss not the little
Say the bottom it just ain't for me
I ain't even feeling the middle
U know I'm working hard I don't sleep
They say rest in the end not the middle
I just be goin and goin and goin
The rain just keep pouring but me I be dry in the end
Never ever have I ever not seen a lil weather
Like right I'm bout to win
Don't really like feeling tried, looked dead in eye
Like they didn't even know who this is
To keep it a buck kinda glad that you did
I had to find my lil bag to get in

I was born to be a boss
And I know how to take a loss bounce back
The game gone come at a cost
Gotta be willing to put in the time
Never been scared of the harder way
I cant make this up
I just make it look easy
