

## Priority

Mooski

Working hard never hardly working  
I'm not perfect I got things that I'm still working on  
Things that I'm still working on  
She told me that I'm

Always in the hype of the weekend  
Always catching flights always leaving  
Let's do something nice on this evening  
I gotta make time cuz she need it  
She gone keep it tight like her weave  
She gone keep it tight like her weave in  
You got what I like what I need  
Girl I ain't gon fight with this feeling

Ouu lil shawty cut but she ain't bleeding  
I put her ice but she anemic  
Freezing,  
Burberry coat just to keep you cozy it's that season  
But shawty got that fye so she won't need it believe me  
Baby you're a priority  
She like when I make time and take time to FaceTime  
So in different time zones we still end up on the same time  
Her's rollie mine Cartier but the face diamonds  
Believe me  
Loving you baby's too easy  
Like Sunday morning  
Like Sunday morning  
You woke up yawning under my arm  
No undergarments know I'm

Working hard never hardly working  
I'm not perfect I got things that I'm still working on  
Things that I'm still working on  
She told me that I'm

Always in the hype of the weekend  
Always catching flights always leaving  
Let's do something nice on this evening  
I gotta make time cuz she need it  
She gone keep it tight like her weave  
She gone keep it tight like her weave in  
You got what I like what I need  
Girl I ain't gon fight with this feeling

I stay working on the job baby  
I stay tied up on the clock baby  
Drop everything when you call except the ball baby  
Fall baby, know I gotta leave but I'll call baby  
She say it's taking way too long for you to call baby (way way way too long)  
She say it's taking way too long for you to come home baby  
(Way way way too long)  
She in her feels I got it  
Turn the wheel I'm coming chills down your body  
Turn the wheel I'm coming to rebuild now I got it  
Baby I just pulled up to the crib

Working hard never hardly working

I'm not perfect I got things that I'm still working on  
Things that I'm still working on
