

# Take It Slow

Mooski

Look at the sun it's looking at you  
Glow all day girl you look like ouuu  
Watch it go down let that set the mood  
Vibing all night look at the moon  
(She like to cool it, aye)  
Today we on chill, girl what you wan' do  
(The sun and the moon switch place)  
Tonight we gone live like 2002

We gonna go-oo back  
Rnb throw-oow backs  
Bumping the slow-ow tracks  
She on that Tony Brax-  
Yea, she outside but she wit that nigga  
Feeling herself cuz I'm pouring in her  
She say she ready to go-ooo  
She off that wine and I'm off that liqour  
(Whoo)

Look at sun ya glowing like glitter  
Ya eyes start to sparkle when the sunlight hit 'em  
Ya body a poet  
Really a symbol  
Body language much deeper than ya dimples  
(Baby, I'm coming to scoop you at 8)  
Checkerboard picnic want breakfast or dinner  
(Just like the calendar boo it's a date)  
Ain't scared to put in that work to get wit ya

Put on sum comfortable, baby, I'm digging yo body  
I'm feeling yo body you know  
I start to dig in her mental, it more than just sensual  
Dug deep and I found some gold  
She don't play soccer but she got some goals  
She can speak proper and can speak the code  
I can tell she seen some struggle before  
She say she ain't like these regular hoes no

Said she wanna bump Ashanti, Alicia keys  
Switch the vibe now its Nelly and Usher Raymond  
Dig the vibe, errything slide, girl you turn me on I cannot lie  
Baby girl, you know in my mind  
But we can take it slow
