Got a dime she from the hood
She working just like me
I think I'm in love
She think the way I think
Chilling on a vibe
She drinking what I drink
Hennessy on ice
She just start to smiling when I asked her what's her sign
Are you a virgo or Saggi-
Leo or Capri-
A Scorpio or Aries
Aquarius or Taurus
A Cancer or Pisces

My first Sagittarius I remember
I took her out on her birthday in mid December
She just like to hear herself talk, think she know everything
But she was winter cold with the brain
Had a pretty brown thing she was a Leo
Her beauty was the only thing agreed on
Baby girl was selfish so I went to steppin'
Met a lil' Aquarius a free soul
She want weed smoke, she won't leave home
Til she find out bout the Aries that I freak on
Til she find out bout the Virgo I can't leave 'lone
She say you haven't said my sign nigga keep goin'

Got a dime she from the hood
She working just like me
I think I'm in love
She think the way I think
Chillin' on a vibe
She drinking what I drink
Hennessy on ice
She just start to smiling when I asked her whats her sign

This one Taurus had me sick "Marvins Room" on repeat
Remember when I met a Scorpio on a sneak link

Had the Capricorn jealous
Now she on one of the fellas
Had a Pisces like to argue 'cuz she miss me
Just so we could break up, just so we could make up
My Cancer baby crying off her make-up
Cuz I don't have the time for her to take up, to cake up
She say ohhh I Still ain't heard my sign (Ohh ahh)

She said I'mma keeper
Oh you must be a Libra
Girl I'm a Gemini
