

Everytime We Touch

Morandi

Everytime our eyes meet
I can almost feel your heartbeat
And everytime we touch
There can never be too much

I knew that I will love you
And you will love me too
From now until forever
We are meant to be together

Chor.:

When you came and set me free
I was broken and lonely
Baby, when you came to me
Love was just a memory

When you came and set me free
I was broken and lonely
Baby, when you came to me
Love was just a memory
just a memory

(Everytime we touch
I get this feeling)

(Everytime we touch
I get this feeling)

Can't forget the sunset
Baby, when we first met
Flying in the red light
I loved you from the first sight

You where beautiful and wild
I was feeling like a child
From now until forever
we are meant to be together

(Everytime we touch
I get this feeling)

(Everytime we touch
I get this feeling)
