

Professional Liar

Morandi

Day and night I live at your mercy
Day and night just waiting on you
Calling up your phone but you're busy
Though I've been good to, good to you

So baby, don't lie to me, lie to me, lie to me, lie to me
You said you got love for me, love for me, love for me, love for me
So baby, don't lie to me, lie to me, lie to me, lie to me
You said you got love for me, love for me, love for me, now I see
You're professional liar

Good or bad you're giving me something
Right or wrong but what can I do?
You're cold as ice you know that I'm burning
Though I've been good, good to you

So baby, don't lie to me, lie to me, lie to me, lie to me
You said you got love for me, love for me, love for me, now I see
You're professional liar
