

Death Before Dawn

Morbid Saint

Darkness falls
The sound of death draw near
An army of evil cries
Echo in your ear
Oblivious to that
Which only hunts at night
A deep infested evil
For your life you soon will fight
Below the horizon
The light protects no more
Their thirst for blood
Infected to the core
Attacking the weak
And the strong cannot survive
Relenting terror
The enemies not alive
Hiding are the ones
That you must fear
Waiting to take your life
The end is oh so near
Escape is close at hand
So keep yourself alive
Visions of daylight
No one can realize
Run and hide in a place
That's safe to rest
Scarred for life as your heart
Pounds out your chest
Awakened to the sound
Of foot steps drawing near
Is it them the deadly ones
Your trembling with fear

Severed limbs
Bloody corpse
Fractured skull
Death before dawn
Ghastly acts
Unto you
No remorse
Death before dawn

Driven by hunger a bloodlust from within
unrelenting evil for
Which there is no sin
The smell of blood
Craving deep inside
They will not stop
You cannot run and hide
Watch in horror see
The pain that lies ahead
Ripping flesh from
The weak infected dead
They thrive on pain
And you know just what you fear
They'll slaughter everyone
Before they disappear
