

Call For Love

Morcheeba

You were my waterslide
I was your waterfall
I missed you then and now
No rest until you call

Now I know how you know
My every dumb mistake
I'll admit I delayed
The lightbulb coming on oh
The light showed up my dark side

We'll put out a call for love tonight
To a share this blessed life
And then you'll believe that
You're adored
We'll set our world alight

I gotta lot of faults for sure
Yeah I'm not innocent here
Although I let you down
I'm gonna own and mend it

All because I lost sight
Of what goes in there
All the turmoil and anguish
When the wall comes tumblin' down
We'll pour the water and wine

We'll put out call for love tonight
To share this blessed life
And then you'll believe that
You're adored
We'll set our world alight

I want you to feel my heart today
Right here by your side
You surely can see that love is bright
To set our world alight

A memory connects time
If you're seeing it right
We can overcome
And release it right in here
To console your soul
We'll combine our minds
We can talk and vibe
Living in the shine if you like
