

# It's Summertime

**Morcheeba**

It's summertime, night's falling  
Into my home, think I might fall in love  
And I won't deny, feeling on a high

Got a lot on the line  
Put a lot on the moonlight  
The invite of a lava light

Mi corazon, pheromone  
I won't let you go  
Oh no, stay aglow with me

It's summertime, night's falling  
Into my home, think I might fall in love  
And I won't deny, feeling on a high

Got an eye on the time  
I am hoping you'll soon like  
All the bight of my darkest side

Oh, please no, don't postpone  
I won't let you go  
Alone, waiting zone  
For me

It's summertime, night's falling  
Into my home, think I might fall in love  
And I won't deny, feeling on a high

We can take it slowly  
Won't you come and hold me  
Oh so closely  
In a ceremony  
Even though it's early  
We are surely to  
Fall in love

It's summertime, night's falling  
Into my home, think I might fall in love  
And I won't deny, feeling on a high

In summertime, night's falling  
Into my home, think I might fall in love  
And I won't deny, feeling on a high  
Oh, feeling on a high
