

Killed Our Love

Morcheeba

Ooh, what a lovely day
For it to fail this way
Driving to the station
In devastation
With a clear blue sky

Ain't gone lie
Feel like I wanna die
Time will know why

Oh, you killed our love
Oh, you killed our love

Lord such lovely day
It had end this way
Driving in silence
Recall violence
With a clear blue sky

I let it take hold
Round my throat till I choke
Time I say no

Oh, you killed our love
Oh, you killed our love

Reduce to the grief
In a dark place
Return to the sweetness
My weakness
Retreat to the fetal position
Your fatal decision changed everything
You killed our love

Collision with heads
In a rough state
Compression with sharpness
So heartless
Conception with lethal precision
Your fatal decision changed everything
You killed our love

Oh, you killed our love
Oh, you killed our love

Oh, you killed our love
You killed our love

Oh
Oh
