

Like a Tornado

Morgan Evans

The clouds were brewin' overhead
I felt the lightning in my veins
I hung off every word you said
As you washed over me like rain

And we were, hot as an Indian summer
Cool as an autumn breeze
A perfect storm when we're together
Electricity

You blew like a tornado through this house
Cleaned my heart right out
Tore me down, spun me 'round
Now I'm standin' in the wreckage
No warning, no sign
You shook this heart of mine
It's broken, wide open
Right here where you left it
Just hopin' you come back around
Like a tornado through this house

For a moment we were flyin'
And every kiss, it burn like fire
We were wild and we were blinded
Guided only by desire

It was too late to run for cover
Couldn't stop it if I tried
This love's like a hot loose wire
Electrified

You blew like a tornado through this house
Cleaned my heart right out
Tore me down, spun me 'round
Now I'm standin' in the wreckage
No warning, no sign
You shook this heart of mine
It's broken, wide open
Right here where you left it
Just hopin' you come back around
Like a tornado through this house

With a devastating rush, you wrapped me up
And left me in the dust

You blew like a tornado through this house
Tore me down, spun me 'round
Now I'm standin' in the wreckage
No warning, no sign
You shook this heart of mine
It's broken, wide open
Right here where you left it
Just hopin' you come back around
Still hopin' you'll come back around
Like a tornado through this house
Like a tornado through this house
No warning, no sign

Like a tornado through this house
