

Settle It Down

Morgan Evans

I drank my way through New York City
Got high as the stars out in LA
Put some miles on my soul
Damn near wore a hole in my old guitar
But just a minute in your brown eyes
Is makin' me feel like

I wanna settle it down
I wanna settle it down
Lord knows I've been running this wild-
horse heart right into the ground
I've always been a rolling stone
Now I know where I was rollin' too
I wanna settle it down, settle it down
Settle it down with you

I watched those years go by like white lines on the highway
Another night, another town
But when I walk through the door
Let my bags hit the floor and fall into your arms
There's a peace in my mind
I thought I'd never find

So if you wanna settle it down
I wanna settle it down
Lord knows I've been running this wild-
horse heart right into the ground
I've always been a rolling stone
Now I know where I was rollin' too
I wanna settle it down, settle it down
Settle it down with you
I wanna settle it down, settle it down
Settle it down with you

I wanna settle it down, yeah, yeah
I swear the world outside gets a little bit wilder every day
And I ain't gonna stop time from slipping away

I just wanna settle it down
I wanna settle it down
Lord knows I've been running this wild-
horse heart right into the ground
I've always been a rolling stone
Now I know where I was rollin' too
I wanna settle it down, settle it down
Settle it down with you
I wanna settle it down, settle it down
Settle it down with you
