Fever

You're giving me fever

You
You got me so damn high
Baby don't cut me loose
I'm dripping in you tonight
I'm calling for you 'cause

When I'm all alone
Running hot and cold
Think I lost control
You give me fever
Like a perfect storm
It goes on and on
Every time you're gone
You're giving me fever
You're giving me fever

I'm calling for you 'cause

When I'm all alone
Running hot and cold
Think I lost control
You give me fever
Like a perfect storm
It goes on and on
Every time you're gone
You're giving me fever

I'm calling for you 'cause

When I'm all alone
Running hot and cold
Think I lost control
You give me fever
Like a perfect storm
It goes on and on
Every time you're gone
You're giving me fever
You're giving me fever

I'm calling for you 'cause

When I'm all alone
Running hot and cold
Think I lost control
You give me fever
Like a perfect storm
It goes on and on
Every time you're gone
You're giving me fever
You're giving me fever
