

# Ghost

Morgan Page

Kiss me with your love  
Kill me like a snake  
Whispered in a hush  
Made me think that we were close  
Nothing's what it seems  
A shadow in my dream  
Left me in a rush  
Always thought that we were close

Think I saw your ghost, but I saw right through you  
Needed you the most, hey now I can tell you  
That's just how it goes, I can't help but wonder  
I think I saw your ghost, think I saw your ghost

Think I saw your ghost, but I saw right through you  
Needed you the most, hey now I can tell you  
That's just how it goes, I can't help but wonder  
I think I saw your ghost, think I saw your ghost

Ghost, ghost, ghost  
Think I saw your ghost  
Ghost, ghost, ghost  
Think I saw your ghost

Ghost, ghost, ghost  
Think I saw your ghost  
Ghost, ghost, ghost  
Think I saw your ghost  
Ghost, ghost

Nothing's what it seems  
A shadow in my dreams  
Left me in a rush  
Always thought that we were close

Think I saw your ghost, but I saw right through you  
Needed you the most, hey now I can tell you  
That's just how it goes, I can't help but wonder  
I think I saw your ghost, think I saw your ghost  
Think I saw your ghost

Ghost, ghost, ghost  
Think I saw your ghost  
Ghost, ghost, ghost  
Think I saw your ghost
