

# Light Years

Morgan Page

I go back on what I said,  
I take back the things I did.  
I know, I've been unfair to you.  
Oh, I know, I've been unfair to you.  
It's like, I'm a staple in the middle of the page,  
Where the ink won't run, and the ink won't stay.  
I know, I've been unfair to you  
Oh, I know I'm never there for you.

You and me are light years apart,  
You and me are light years,  
You and me are light years apart,  
You and me are light years.  
It's not up to me, oh  
It's down to you.  
I can change if you can too.  
We got caught in the middle,  
Caught out here,  
We got caught in the middle,  
With every word, every time.

Our lives break up and we never compromise,  
These words break down cause we never took the time.

You and me are light years apart,  
You and me are light years,  
You and me are light years apart,  
You and me are light years.  
It's not up to me, oh  
It's down to you.  
I can change if you can too.  
We got caught in the middle,  
Caught out here,  
We got caught in the middle,  
With every word, every time.

I go back on what I said,  
I take back the things I did.  
I know, I'm never there for you.  
Oh, I know, I'm never there for you.

You and me are light years apart,  
You and me are light years,  
You and me are light years apart,  
You and me are light years.  
It's not up to me, oh  
It's down to you.  
I can change if you can too.  
We got caught in the middle,  
Caught out here,  
We got caught in the middle,  
With every word...  
It's not up to me, oh  
It's down to you.  
I can change if you can too.  
We got caught in the middle,  
Caught out here,

We got caught in the middle,  
With every word, every time.

You and me are light years,  
You and me are light years apart,  
You and me are light years.

You and me are light years,  
You and me are light years apart,  
You and me are light years.
