

Water

Morgan Page

We're oceans apart
Wanna sail back to you now
The lighthouse keepin' wet, oh-ah, uh-huh
Memories stay out at dusk
At the bottom of the water
I'm shipwrecked in my heart, oh-oh
Woah, oh

Tell me now, tell me now
Are we lost, yeah?
Have we gone way too far to come back again?
Tell me how, tell me how
What's the answer?
I need an anchor
Tell me now, tell me now
Are we lost, yeah?
Have we gone way too far to come back again?
Tell me how, tell me how
What's the answer?
I need an anchor

Tell me now
Tell, tell, tell me now
Tell me now
Tell, tell- To come back again?
Tell me now
Tell, tell, tell me now
Tell me now
Tell, tell- To come back-?

Don't let me drift away, uhm, drift away
'Cause I won't find a way to your water
Don't let me drift away, uhm, let me drift away
'Cause I won't find a way to your water
Water, water, water, water
Find your water, water, oh
To your water, water, water
Find your water, to your water

We're oceans apart
Wanna sail back to you now
The lighthouse keepin' wet, uh-huh

Tell me now, tell me now
Are we lost, yeah?
Have we gone way too far to come back again?
Tell me how, tell me how
What's the answer?
I need an anchor

Tell me now
Tell, tell, tell me now
Tell me now
Tell, tell- To come back again?
Tell me now
Tell, tell, tell me now
Tell me now

Tell, tell- To come back-?

Don't let me drift away, uhm, drift away
'Cause I won't find a way to your water
Don't let me drift away, uhm, let me drift away
'Cause I won't find a way to your water
Water, water, water, water
Find your water, water, oh
To your water, water, water
Find your water, to your water
