

Come Alive

Morgan Rose

Picture a time, another place
Where you pushed it aside
And you lived under the hand
And a dirty eye
Accepting all that was just a game
To break the mold of a name
You became identified as another lie

I can feel you now
Becoming the face of fear
It all made sense till now
Stuck in a place so clear
And not know how to get out

When you decide to be a sheep stuck
Holding a place in the line
You're left to count on everyone
It's never okay to say you don't believe
But if you don't step away
You'll fucking live a lie come alive
Come alive

Becoming the face of fear
It all made sense till now
Stuck in a place so clear
And not know how to get out

The violent projection haunts
Retreat to the other life you had
Before your hate was born
I can see you now

Stuck in a place so clear
With no way left to get out

Becoming the face of fear
It all made sense till now
Stuck in a place so clear
And not know how to get out
You've turned into the face you feared
And I can see you now
