

Kelley's Drive

Morgan Wade

Sometimes to help me feel alive
I take a ride down Kelley's Drive
Just to see if you were home
And to help me not feel so alone
And I done drank about a fifth of Jack
I'm feelin' pretty low but I'm not turning back
I'd like to call you up, see where you are
But I'll just pass out here in my car

I could never forget July 19th
That evening you and I got back from the beach
And I crashed at your place, you held me so tight
It was one hell of a special night
And I do not know that I could ever move on
But I could write about you in some of these songs
I'll continue to love you with every beat in my heart
Till that last damn beat falls apart

Well, I wrote this for closure, my final goodbye
My last moment to break down and cry
And I know you say that we are friends but it
Does not feel like we've made amends
And I've just got one more thing to say, you're
So damn perfect, don't ever change
And I, I'll always have a place for you
Yeah, I'll always be in love with you

Sometimes to help me feel alive
I take a ride down Kelley's Drive
