

## Other Side

**Morgan Wade**

You knew my skin back before I had all these tattoos  
You remember me on late nights strung out from pills and booze  
We've had some bad times, baby, but we had some good times, too  
You knew my skin back before I had all these tattoos

Baby, baby, baby  
We ain't nothing but Rolling Stones  
Being a gypsy ain't so bad when you're with me  
'Cause I never have to be alone  
You've seen the parts of me that the world says I should hide  
But even in the dark you love my bitter heart  
And we'll make it to the other side

These days when I look back, I just have to laugh  
They all said that you and I would never last  
I've made my share of mistakes and we left that in the past  
These days when I look back, I just have to laugh

Baby, baby, baby  
We ain't nothing but Rolling Stones  
Being a gypsy ain't so bad when you're with me  
'Cause I never have to be alone  
You've seen the parts of me that the world says I should hide  
But even in the dark you love my bitter heart  
And we'll make it to the other side

But even in the dark  
You love my bitter heart  
And we'll make it to the other side

Baby, baby, baby  
We ain't nothing but Rolling Stones  
Being a gypsy ain't so bad when you're with me  
'Cause I never have to be alone  
You've seen the parts of me that the world says I should hide  
But even in the dark you love my bitter heart  
And we'll make it to the other side

Even in the dark  
You love my bitter heart  
And we'll make it to the other side  
Even in the dark  
You love my bitter heart  
And we'll make it to the other side
